## Skills

Adobe After Effects

Adobe Illustrator

Adobe Premier Pro

Adobe Photoshop

Adobe Substance Painter

Blender

Unity

## Language

- Romanian
- English

## Work Experience

Ministry of National Defense  
2017-2024

I am very passionate about the IT field, over time I have accumulated experience and learned different softwares to help me develop indie games, with some games released on mobile and PC. Also recently I was attracted to graphics design, like creating skins for Counter Strike 2 models on workshop. I would like (I am planning) to attend graphic design and programming specialization courses in the future specializare pe graphics design si programare.

## Education

Borsa highschool

## Skills Summary

Fiver freelance  
reviews (level design in Unity) level 2 seller
